Car Suitability Discussion Questions

These questions focus on the function and suitability of the car types provided in the image: **SUV, Crossover, Sedan, Pickup Truck, Hatchback, Convertible, Luxury, Coupe, Hybrid/Electric, Minivan, Sports Car, Station Wagon.**

1. Which type of car do you think is **most suitable** for a **big family holiday** with five children and a lot of luggage? Why?
2. Imagine you are driving mostly in a **busy city** where parking is difficult. Which car type would be the **least practical** choice, and which one would you recommend instead?
3. If a customer needed a reliable, fuel-efficient vehicle just for a **short daily commute** to work, which of the Hybrid/Electric, Sedan, or Hatchback cars would be the **best compromise** of features?
4. If you wanted to take a car on a **very rough road** or a mountainous adventure trip, which vehicle, the **SUV** or the **Coupe**, is the clear winner for safety and power?
5. Which car type is usually seen as the **most comfortable and expensive** choice for a business executive, and why do they often prefer a Luxury or Sedan?
6. You are helping a friend who needs a vehicle to **transport heavy materials** and tools for his construction job. Which car type is specifically designed for this kind of **heavy-duty work**?
7. Which vehicle is primarily designed for a **fun, high-speed driving experience** on the weekend, the Sports Car or the Crossover, and what is its main disadvantage for everyday use?
8. For a small family needing a practical vehicle that is **easy to load and unload** groceries or smaller equipment, would you suggest a **Station Wagon** or a **Minivan**? Explain your recommendation.
